Code Crafter Infotech

Crafting Code, Creating Futures

Complete HR Operations Suite

Complete HR Management Workflow

End-to-End Automation for Enterprise Workforce Operations

Our HRMS streamlines the entire employee lifecycle—from initial onboarding and daily time tracking to automated monthly payroll and advanced HR performance analytics.

INTEGRATED HR MANAGEMENT PROCESS FLOW

Employee Registration → Profile & Documents → Attendance Tracking → Leave Requests → Payroll Processing → Payslip Generation → Performance → HR Analytics

📌 Employee Management

Manage complete employee information, documents, departments, designations, and employment details.

🎯 Recruitment

Manage job openings, candidate information, multi-stage interview tracking, and recruitment status.

⏱️ Attendance & Leave

Monitor employee attendance, working hours, leave requests, approvals, and leave balances in real-time.

📈 Performance Management

Track employee performance, goals, reviews, key metrics, and periodic appraisal information.

💳 Payroll Management

Automate salary calculations, deductions, allowances, payroll processing, and instant payslip generation.

📊 Reports & Analytics

Generate detailed employee, attendance, leave, payroll, recruitment, and organizational performance reports.

KEY BUSINESS BENEFITS
