01 Centralized | **02** Real-Time | **03** Efficiency | **04** Reduced Cost | **05** Data Insights

WHY YOUR BUSINESS NEEDS AN ERP

- ⚠ Departmental miscommunication & data silos
- ⚠ Inaccurate inventory levels & stockouts
- ⚠ Production delays & uncoordinated planning
- ⚠ Manual, error-prone sales & purchase tasks
- ⚠ Difficulty tracking work orders in real-time
- ⚠ Limited reporting & poor business visibility

WHAT OUR ERP SOLUTION DELIVERS

- ✓ Single centralized source of accurate business data
- ✓ Complete real-time visibility on production & stock
- ✓ Streamlined procurement & faster order fulfillment
- ✓ Enhanced quality assurance & compliance control
- ✓ Automated financial & operational report generation
- ✓ Role-based access security & structured workflows

CORE ERP MODULES

1. Dashboard & Analytics
- Business Overview & KPI Monitoring
- Production Summary & Real-time Alerts
- Inventory Status & Critical Notifications

2. Production Management
- Production Planning & Scheduling
- Work Order Generation & WIP Tracking
- Multi-level Bill of Materials (BOM)

3. Inventory & Warehouse
- Raw Materials & Finished Goods Stock
- Multi-Warehouse & Bin Location Control
- Stock Transfers & Reorder Level Tracking

4. Purchase Management
- Supplier Database & Performance Rating
- Purchase Orders (PO) & GRN Entry
- Vendor Payments & Invoice Matching

5. Sales & Delivery
- Customer Quotations & Proforma Invoices
- Sales Orders & Order Processing
- Dispatch & Delivery Tracking Management

6. Quality Management
- Incoming & Production Quality Inspections
- Defect Records, Testing & RCA
- Regulatory Compliance & Audit Trails

7. Finance & Accounting
- Expense Control & Vendor Ledger
- Tax Compliance, GST & Invoicing
- Profit & Loss Statement & Balance Sheet

8. Human Resource (HR)
- Employee Master & Attendance Systems
- Automated Payroll & Tax Deduction
- Leave Approvals & Shift Scheduling

9. Reports & Business Intelligence
- Comprehensive Production Efficiency Reports
- Inventory Turnover & Sales Analytics
- Profitability & Cost Analysis Reports

10. User & Role Security
- Super Admin Control & User Management
- Departmental Access & Permissions
- Data Encryption & Secure Access Audit

Key Promise: One integrated platform to plan better, produce smarter, control costs, and scale your enterprise with confidence.

MANUFACTURING ERP WORKFLOW

From Raw Material to Finished Product — One Connected Ecosystem

CODE CRAFTER INFOTECH
codecrafterinfotech.com

END-TO-END OPERATIONAL FLOW

1. **Purchase Planning** — Suppliers
2. **RM Procurement** — PO / GRN
3. **Inventory & Stock** — Warehouse
4. **Work Order & BOM** — Scheduling
5. **Production Floor** — WIP Tracking
6. **Quality Control** — Pass / Reject
7. **Finished Goods** — FG Stock
8. **Sales Order** — Delivery
9. **Finance & Billing** — Profit & Reports

REAL-TIME ERP CONTROL & SECURITY LAYER

Executive Dashboard | User & Role Management | Reports & Business Analytics | System Settings

KEY BUSINESS BENEFITS

Lower Costs
Reduce waste & eliminate excess inventory.

Faster Operations
Accelerate planning, execution & dispatch.

Better Quality
Enforce strict inspections & defect tracking.

Business Visibility
Make confident decisions with live data.

DEPARTMENTAL IMPACT

Production: Schedules, work orders, WIP tracking.
Sales: CRM, quotations, orders & delivery tracking.
Inventory: Stock counts, reorder alerts, bin management.
Procurement: Vendor rating, purchase orders, GRN.
Quality: Stage inspections, defect logs, audit trail.
Finance: Expenses, P&L reports, GST invoicing.

EXPECTED OUTCOMES

- ✓ Maximize shop-floor production efficiency & throughput
- ✓ Improve planning accuracy and eliminate schedule delays
- ✓ Minimize human errors, manual paperwork, and duplicate entry
- ✓ Enhance customer fulfillment velocity and order accuracy

SUITABLE INDUSTRIES & ENTERPRISES

Automobile & Engineering	Electronics Manufacturing	Textile & Garment	Food & Beverage
Pharmaceuticals	FMCG Goods	Plastic & Packaging	Metal & Steel Fabrication
